

## Company Profile

PTL Group is a locally owned and operated specialist liquid waste company with over 40 years' experience. We specialise in a wide range of liquid waste removal, hydro excavation and liquid waste processing services.

PTL Group has a modern fleet of specialist vehicles with plenty of capacity in terms of tanker size and fleet numbers. PTL Group can cover small residential jobs, such as unblocking drains and servicing septic tanks, to large commercial applications involving the transportation and processing of vast quantities of waste at short notice – we do it all.

PTL Group covers the wider Bay of Plenty, Taupo, Thames, Matamata and Tokoroa areas on a daily basis and further afield by arrangement.

PTL Group operates a 24 hour, seven-day a week emergency call out service, managed through a third party specialist answering service, ensuring no emergency call or requirement goes unanswered.

This dedication to customer service recognises that PTL Group is a key supplier to major industries, including infrastructure companies providing critical support to water and waste water facilities, and customers generally where 24/7 rapid response to critical situations is essential in terms of continuity of our customers' business operations, public health and the environment.

Some of our existing client relationships include Tauranga City Council, Western Bay of Plenty District Council, Port of Tauranga, Downer, Fulton Hogan, Seeka, Graincorp, and many local rural property owners and small businesses.
